

You can easily disable Internet Explorer's AutoComplete feature by changing your Internet Properties.

## How to disable AutoComplete

1. Double-click the **My Computer** icon.

2. Double-click the **Control Panel** icon.

3. Double-click the **Internet Options** icon.

4. Click on the **Content** tab.
5. Click the **AutoComplete...** button.

6. Uncheck the box next to **Web addresses**.
7. Uncheck the box next to **Forms**.
8. Uncheck the box next to **User names and passwords on forms**.
9. Click the **OK** button.

10. Click "Clear Forms" Box then click OK.
11. Click "Clear Passwords" Box the click OK.
12. Close all windows.

You have disabled AutoComplete.
